Leadership Cabins

Pilgrim's Rest is a one-bedroom cabin often used for a leader or guest speaker and their spouse.

Tranquility has two king suites and a loft with a twin, a double, a futon, and a trundle for sleeping arrangements and is often used for leaders, cooks, or the band.

Did you know?

When not used by groups at the camp, we make Tranquility and Pilgrim's Rest available to use as a reprieve for those in full-time ministry or for other ministry purposes.

Cleaning

In order to help us keep the camp looking great, we ask all guests to leave the camp as they found it. We provide brooms, mops, trash bags, cleaning spray, and cleaning rags, and we have signs posted in every cabin to help guide campers through the cleaning process.

We will do a walk-through of the cabins 15-30 minutes before you leave, and help with any remaining cleaning that needs to be made to ensure it is ready for our next guests.

MESSY FIELDS

Water games - especially those involving soaps and oils - along with inflatables, color runs, and other messy activities can take a toll on our grass throughout the year.

Please use the designated “Messy fields” shown on the camp map.

Scheduling and Activities

Lake Use (Summer Months)

Each of our facilities have their own personal daily lake time, which can vary based on the season. Please check your contract packet to determine the lake time that is scheduled for your group.

Amphitheater

Our outdoor amphitheater overlooks the Tennessee river with sunset views in the summer and is sometimes used by groups for a special acoustic service. There is no cost to use it, but since it is shared between our facilities, it must be scheduled ahead of time. It is located 2 miles down a gravel road that is located just 1 mile west down Co. Rd. 88. Because most of the route is off-road, plan around 25 minutes for transportation each way. After scheduling use of Amphitheater, please indicate what method(s) of transportation you would like to use for your group:

- Transport your group in personal vehicles (SUV's, trucks, and some buses are acceptable, cars not recommended)
- Arrange for the 5 ton military truck and trailers to transport up to 200 people (make sure to check availability of truck and schedule ahead of time)

**** Refer to map and see location of Amphitheater**
